1 of 1 review helpful A good read of escapist adventure stories of ancient astronauts and extinct cities By Mark K Rempel I have the 1999 edition which seems to be no longer in the catalog I also suspect the 2006 edition drops the Jules Verne The Sphinx of the Ice Fields which is only excerpts and does not fit in the horror and wonder theme of the rest of the stories The whole novel is published as The Sphinx of the Horror and Wonder at the Ends of the Earth Writers are drawn to the unreachable places of the Earth to the greatest mountains and depths of the sea the most barren deserts and to the white frozen deserts surrounding the north and south poles In our minds eyes the beauty and mystery of the ice descends from Poe to the present and into the future an infinite realm of wonder
