0 of 0 review helpful Great anthology By royzilla Used copies don t always come with the paper cover but that s my own complaint if a complaint at all If you like fiction of the Weird Tale you ll really enjoy the fiction in here It has

works from classics like Ray Bradbury Richard Matheson Shirley Jackson Stephen King and more Some of the best ones in my opinion are Beaumont s Black Country and Jackson s The D The second volume of Peter Straub s pathbreaking anthology American Fantastic Tales picks up the story in 1940 and provides persuasive evidence that the decades since then have seen an extraordinary flowering While continuing to explore the classic themes of horror and fantasy successive generations of writers including Shirley Jackson Ray Bradbury Charles Beaumont Stephen King Steven Millhauser and Thomas Ligotti have opened up the field to new subjects new sty From Publishers Weekly Starred In this second installment Straub ventures onto somewhat more adventurous ground His selections bring readers completely up to date with the genre featuring tales from even the newest writers such as M Rickert and Joe Hill
