1 of 1 review helpful Excellent creepy mythos tales By John O Youngblood Most stories here are skin crawlingly appropriate additions to the HPL mythos Some are not so much to my liking due to the nature and not the content of the specific story I don t really care for long poems or stories that are completely stream of consciousness But that s my own personal preference and nothing against the actual objective worth o Decades centuries and even thousands of years in the future the horrors inspired by Lovecraft do not know the limits of time or space Journey through this anthology of science fiction stories and poems inspired by the works of H P Lovecraft Listen to the stars that whisper and drive a crew mad Worship the Tloque Nahuaque as he overtakes Mexico City Slip into the court of the King in Yellow Walk through the streets of a very altered Venice Stop to adm H P Lovecraft s tales of cosmic horror often skirt the edge of science fiction The anthology will give Lovecraft and SF fans a good introduction to one another s worlds Publisher s Weekly
